Ezequiel Canan

Full Stack Developer

👤 17 years old

Profile

Versatile Full-Stack Developer with a proven track record at just
17, I dove into programming at 12, out of pure passion, through self-guided, hands-on projects and fast-tracked into university by acing the GED. Today, I'm on the brink of completing my bachelor's in IT at Purdue Global with a perfect 4.0 GPA (thesis pending). I've always been driven by a deep curiosity and a love of learning, which has helped me build technical skills beyond what you'd expect for my age. Now, I can't wait to expand my machine learning expertise and keep creating solid, full-stack solutions that really move the needle for businesses
